

BOHS P405

Management of Asbestos in Buildings

COURSE DURATION: 4 Days

COURSE FEE: £695 + VAT per delegate

COURSE FEE: £160 (VAT Exempt)

WHO IS IT FOR?

The course is designed to offer candidates the practical knowledge and skills to be able to manage asbestos in buildings and give a knowledge base to audit asbestos removal projects.

The course is also useful for those that are responsible for managing asbestos in a building or estates that have no real experience within the asbestos industry.

COURSE CONTENT

The course covers a broad range of asbestos related matters including the nature of asbestos, its properties and health effects, asbestos in buildings, asbestos management plans & strategies, the roles of asbestos surveyors, contractors and analysts.

The course includes a full range of PowerPoint presentations, video, accompanying notes and additional course materials.

In addition to classroom based tutorials, delegates undergo practical assessments and role playing which helps combine all aspects of the course and helps give the candidate an overview of the situations that they may experience on site.

ASSESSMENT

Candidates will be required to pass all of the following to be awarded the module:
Written Theory Examination
Written Practical Examination

QUALIFICATION & CERTIFICATES

Successful completion of the course will give delegates the practical knowledge and skills to be able to manage asbestos in buildings and to carry out basic audits of asbestos removal projects.
A formal certificate is issued to successful candidates directly by BOHS.

ADDITIONAL INFORMATION

This course gives the candidate a huge amount of knowledge of all asbestos of asbestos management and an overview of the surveying, removal and air sampling and clearance process

This is an ideal course for those undertaking the day to day management of asbestos within your organisation.
